

SG-04 SERIES™, SG-05 SERIES™, SG-07 SERIES™, SG-10 SERIES™, SG-14 SERIES™

CAST IRON & DUCTILE IRON* CONSTRUCTION | SPUR GEAR PRODUCT LINE

FEATURES & BENEFITS

- Needle bearings provide high pressure capabilities, sleeve bearing options available
- Close-coupled motor mount or foot bracket options to match space or motor requirements
- Double pump configurations offer two flow rates operating from a single power source, reducing equipment costs

Two section pump (casing and bracket) on SG-10 & -14 reduces runout to keep shaft aligned for long seal life. Three section pump (casing, bracket and head) on SG-04, -05 & -07 allows for more precise machining for closest clearances on low flows.

Sealing options include single lip seal, duplex lip seals with grease barrier, or single mechanical seal (all SG sizes). In addition, SG-10 and -14 offers pinned mechanical seal for high viscosity, and cartridge style single or double mechanical seals. Sealless mag drive option also available.

Antifriction needle bearings with high load carrying capacity standard for forgiving operation. Sleeve bearing options include carbon graphite for thin liquids, high temperature carbon, and silicon carbide for abrasives.

Hardened steel gears and shafts minimize wear. Spur-type gears minimize axial thrust for long seal life.

CAPACITY
to 190 GPM
(719 LPM)

PRESSURE
to 500 PSI
(34 BAR)

VISCOSITY
28 to 1,000,000 SSU
(1 to 250,000 cSt)

TEMPERATURE
-40°F to +450°F
(-40°C to +230°C)

PERFORMANCE

Integral pressure relief valve standard (single pump).

① SG-05 models available with UL 343 listing for fuel oil.

PORTING

- ▮ Opposite (180°)
- ▮ NPT
- ▮ SAE O-Ring
- ▮ SAE Flange

SEALING

- ▮ Lip Seal
- ▮ Component Mechanical Seal
- ▮ Mag Drive

MOUNTING

- ▮ Foot Mount (with Footed Bracket)
- ▮ Motor Mount Bracket to IEC & NEMA Motors (Close-Coupled)
- ▮ Vertical Mount

OPTIONS

- ▮ Double Pump

(SG-0525 M4 Drive)

DRIVES

- Ⓧ Direct-Mounted Drive
- ⓑ Foot Bracket Mounted Drive
- Ⓜ Motor Mounted Drive
- Ⓜ4 Tang Motor Drive

TYPICAL APPLICATIONS

- ▮ Pipeline Injection
- ▮ Pipeline Sampling
- ▮ Oil Polishing
- ▮ High Pressure Lubrication
- ▮ Hydraulics
- ▮ Fuels
- ▮ Lube Oils
